

Save the Ducks and Geese!

Sign Our Petition to Ban Foie Gras in Vancouver!

Foie gras (French for "fatty liver") is very cruel and inhumane and is made by force feeding **ducks and geese** until their liver becomes about 10 times the normal size. Long pipes are shoved down their throats and food is forced directly into their stomachs. This process is very painful and often causes injuries.

The State of California has already made moves to ban the sale of foie gras.

We, the undersigned, petition the City of Vancouver, British Columbia, Canada to ban the sale of foie gras.
